4-2 Week Sessions

Jun 28 – Sept 03

This summer, campers and their families can enjoy the fruits of their labor by harvesting and taking home a variety of fresh vegetables grown in their very own garden plots. Skilled instructors teach campers how to plant, maintain, and harvest their assigned gardens. In addition to swimming, field trips, and cookouts, campers are introduced to the natural environment through a series of games, lessons, and projects. Gardening is a continuous activity so campers are encouraged to register for all sessions that include initial planting to the final harvesting.
